SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 8-K

CURRENT REPORT  
Pursuant to Section 13 OR 15(d) of The Securities Exchange Act of 1934

Date of Report (Date of earliest event reported) **March 11, 2025**

**Ondas Holdings Inc.**  
(Exact name of registrant as specified in its charter)

**Nevada**  
(State or other jurisdiction  
of incorporation)

**001-39761**  
(Commission File Number)

**47-2615102**  
(IRS Employer  
Identification No.)

**One Marina Park Drive, Suite 1410, Boston, MA 02210**  
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code **(888) 350-9994**

N/A  
(Former name or former address, if changed since last report.)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock par value \$0.0001	ONDS	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by checkmark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

**Item 8.01. Other Events**

On March 11, 2025, Ondas Holdings Inc. (the "Company") issued a press release announcing a strategic partnership between its wholly owned subsidiary, Ondas Autonomous Systems and Palantir Technologies Inc. (NASDAQ: PLTR), a leading provider of AI systems. A copy of the press release is attached as Exhibit 99.1 and incorporated herein by reference.

**Item 9.01. Financial Statements and Exhibits.**

## Ondas and Palantir Partner to Enhance Operational Capabilities and Drive Global Adoption of Autonomous Systems

*Ondas Autonomous Systems will utilize Palantir's Foundry platform to enable its scalable operating platform to support global adoption of its autonomous drone platforms*

*Foundry's AI-driven insights will help to optimize supply chain, production workflows, and customer engagement strategies, delivering superior value to commercial and military customers*

**Boston, MA / March 11, 2025** / Ondas Holdings Inc. (NASDAQ: ONDS), a leader in autonomous drone and data solutions, today announced a strategic partnership between its wholly owned subsidiary, Ondas Autonomous Systems ("OAS"), and Palantir Technologies Inc. (NASDAQ: PLTR), a leading provider of AI systems. This collaboration will leverage Palantir's Foundry platform to unify data, streamline operations, and enable a scalable operating platform supporting the adoption of OAS's Optimus System and Iron Drone Raider autonomous drone platforms worldwide.

Through this partnership, Ondas will integrate Palantir's Foundry platform as a decision-making accelerator, enabling real-time operational intelligence across its core functions, including customer engagement, sales and marketing, production, supply chain management, and field support. Foundry's capabilities will be particularly helpful in scaling a US-based supply chain for Optimus and Iron Drone. Foundry's capabilities will enhance Ondas' ability to navigate complex operational environments and scale its autonomous solutions to provide aerial security and intelligence across defense, security, and public safety markets.

"Palantir's Foundry platform will serve as a central operating system for our data, creating a unified operational picture that significantly boosts efficiency and scalability," said Eric Brock, Chairman and CEO of Ondas. "By leveraging Foundry and other Palantir capabilities, we access a comprehensive AI-enabled infrastructure that supports our business expansion. As we deploy our Optimus and Iron Drone platforms, Foundry's AI-driven insights will allow us to optimize supply chain, production workflows, and customer engagement strategies, ensuring we deliver exceptional value to both commercial and military clients."

"We are excited to partner with Ondas to scale their autonomous drone solutions," said Kevin Kawasaki, Global Head of Business Development at Palantir. "Foundry's ability to integrate siloed data sources and enable real-time analytics will empower Ondas to make faster, data-driven decisions, ensuring their customers—across industries and defense—operate with greater efficiency and resilience."

The scalability of Palantir's Foundry platform will also support Ondas' broader strategic initiatives, facilitating deeper market penetration and reinforcing its leadership position in the autonomous systems industry. As the Optimus System and Iron Drone Raider gain traction globally, this partnership will enable Ondas to manage its growing operational complexity efficiently while continuing to innovate and deliver cutting-edge autonomous solutions. The partnership also allows Ondas and Palantir to explore future technology collaborations.

### About Ondas Holdings Inc.

Ondas Holdings Inc. ("Ondas") is a leading provider of private wireless data solutions via Ondas Networks Inc. ("Ondas Networks") and commercial drone solutions through Ondas Autonomous Systems Inc. via its wholly owned subsidiaries American Robotics, Inc. ("American Robotics" or "AR") and Airobotics LTD ("Airobotics"), which we operate as a separate business unit called Ondas Autonomous Systems.

Ondas Networks is a developer of proprietary, software-based wireless broadband technology for large established and emerging commercial and government markets. Ondas Networks' standards-based (802.16s), multi-patented, software-defined radio FullMAX platform enables Mission-Critical IoT (MC-IoT) applications by overcoming the bandwidth limitations of today's legacy private licensed wireless networks. Ondas Networks' customer end markets include railroads, utilities, oil and gas, transportation, aviation (including drone operators) and government entities whose demands span a wide range of mission critical applications.

Ondas Autonomous Systems Inc. (OAS) specializes in designing, developing, and marketing autonomous drone solutions via its two advanced drone platforms: the Optimus System, the world's first FAA-certified small UAS (sUAS) for aerial security and data capture, and the Iron Drone Raider, a counter-drone system designed to combat hostile drones. Both platforms are highly automated, AI-powered, and capable of continuous, remote operation for critical defense, infrastructure, industrial, and government applications. American Robotics and Airobotics have achieved industry-leading regulatory milestones, including the first-ever FAA Type Certification for the Optimus System and the first drone system approved by the FAA for automated beyond-visual-line-of-sight (BVLOS) operations without an on-site human operator.

Ondas Networks, American Robotics and Airobotics together provide users in defense, homeland security, public safety and other critical industrial and government security and infrastructure markets with improved connectivity, situational awareness and data collection and information processing capabilities.
